Notice to our athletics community

As Canada and the world respond to COVID-19, Carleton is also monitoring the situation very closely. As the pandemic is constantly evolving, we continue to hold the safety and well being of all of our constituents paramount in all decision making.

In light of the developments both globally and locally, Carleton Athletics has decided to proactively respond by cancelling all departmental programming effective Saturday, March 14th until further notice.

These programs include:

- Ravens Leagues
- Carleton Adult Hockey Leagues
- Intramural Programs
- Open Recreation
- Varsity or Club practices or games
- Junior Ravens Programs
- Group Fitness Classes
- Group Aquatics Programs
- Learn to Swim Programs

The Fitness Center, Pool, Ice House, Field House & Squash Courts will remain open to use at members’ discretion.

Should any rental groups wish to cancel their bookings in light of this current health crisis, please contact: ravens@carleton.ca

Carleton University and the Department of Recreation and Athletics is continuing to closely follow the advice provided by Ottawa Public Health and other health agencies such as the Public Health Agency of Canada and Ontario Public Health. We will advise our community when/if there is a change to this closure.

In the interim, we recommend that all constituents continue to take the following preventative measures:
• Stay home if you are sick
• Wash your hands often with soap and water, or use hand sanitizer
• Avoid touching your eyes, nose, and mouth unless you have just washed your hands
• Cover your coughs and sneezes with a tissue or your arm, not your hand

Should you have any outstanding questions or concerns regarding the COVOID-19 preparations on campus, please email covidinfo@carleton.ca
